PATROL

CRAFT

PATROL CRAFT SERIES

This proven design was developed as fisheries control and patrol vessel to work multiple maritime environments. Thanks to its surface drive propulsion system, she can sail as fast as 35+ kts and can be also used in shallow waters and challenging seas. Thanks to its foam filled hdpe fender surrounding with 6 watertight sections, this vessel is literally non-sinkable. The innovative indestructible hdpe hull also means very low servicing and maintenance costs as well as the lack of need for painting, anti-foiling or wintering.
