

IZMIR SHIPYARD

IZ 750

UNMANNED
AUTONOMOUS
PLATFORMS

ALBATROS-S

In a groundbreaking collaboration, industry leaders Aselsan and Izmir Shipyard have joined forces to introduce the remarkable IZ 750, a fleet of unmanned and autonomous platforms with swarming capability. This unique feature empowers them to function autonomously or as a coordinated unit. This flexibility makes them an ideal choice for a variety of tasks, each tailored to meet the specific mission requirements. This exciting development is set to redefine maritime operations, offering versatile solutions to meet a range of requirements.

The IZ 750 is engineered to excel in numerous maritime operations, including:

Search and Rescue: These platforms are equipped to swiftly respond to emergencies at sea, aiding in locating and rescuing individuals in distress.

Large Area Scans: With advanced sensors and communication systems, the fleet can conduct large area scans to collect vital data for various purposes, from environmental monitoring to security surveillance.

Escort Missions: The vessels are designed to provide secure escort services, ensuring the safe passage of valuable cargo or important assets.

Targeted Operations: In situations where sending troops might be risky, these platforms offer a safe and efficient alternative for executing targeted operations.

Length Overall :	7.20 m
Beam :	2.00 m
Draught :	0.35 m
Material :	HDPE
Pax and Crew :	-
Propulsion :	Stern Drive
Engine :	: VOLVO PENTA D4 300
Speed :	45+ kts
Class Society :	CE
Delivery Upon Order :	12 weeks

Shipyard : 43. Sokak No:25 Sasali, Izmir, Turkey
Istanbul Branch : Beyoglu Is Merkezi No: 187/5 Galatasaray, Istanbul
Tel : +902323641294 Fax : +902323699812
