PATROL CRAFT

PATROL CRAFT SERIES

This proven design was first developed as fisheries control and patrol vessel to work on a variety of maritime environments. Thanks to its jet driven propulsion she can sail as fast as 35 kts and can be also used on shallow waters and in challenging environments. Thanks to its foam filled HDPE fender surrounding with 6 watertight sections, this HDPE patrol boat is literally non-sinkable. The innovative indestructible HDPE hull also means that no wintering is necessary during the whole life of the vessel.
