

IZMIR SHIPYARD

IZ 1500 AL

PILOT

CRAFT

PILOT CRAFT

SERIES

The boat is of a marine-grade Aluminum construction and has been designed to be fitted either with water jets or other propulsion systems like conventional propellers and pod drives. Featuring a centrally located wheelhouse for good around visibility that is mandatory for a pilot boat and shock-absorber seating for 8 persons. The GM-designed hull can be optimized for any kind of propulsion system and offer a high level of speed and maneuverability. She is capable of speeds up to 35 knots depending on specifications and engine options.
